ALL SWIMMING POOLS SHALL:

1. Conform to required setbacks, offsets and any requirements of the ordinances governing pools.
2. All electrical work shall be installed by a qualified person. Electrical wiring shall conform to the current standards of ILHR 16 and NEC 680 and any subsequent revisions.
3. Pool wiring shall be inspected by the Electrical Inspector.

FENCING

All in ground pools are required to be fenced with a board or metal fence being a minimum height of 48 inches. Shall have a self closing, self latching gate. Above ground pool must be 48 inches minimum above ground at ALL points, otherwise they must be fenced in the same manner as in ground pools. They must have swing up type ladders or the area where steps or ladder are located must be fenced and have a self closing, self latching gate. Above ground pools should be concealed as well as possible with shrubs or other plantings to screen the pool from view. **NO POOL SHALL BE FILLED WITH WATER UNTIL SUCH FENCING IS ERECTED.** All pools require inspections by the Building Inspector during construction and at completion. Excessive noise and bright overhead lighting shall not interfere with your neighbor's right to peace and quiet.
