

## **Zoning Standards – Personal Wireless Telecommunications Facility**

A petitioner must present evidence by which their petition for a personal wireless telecommunications facility meets the following standards. Please provide a written explanation supporting each standard.

1. Has the applicant sought or been denied the opportunity to co-locate its personal wireless service facility on an existing antenna supporting structure? Please explain.

2. Explain how a significant gap in coverage exists in the applicant's coverage area for the provision of personal wireless telecommunications service?

3. Explain the means chosen to fill a significant gap in coverage the least intrusive on the conditions set for in Appendix K of the Zoning Ordinance?

4. Explain the specific and unique aesthetic, visual and safety objections relative to such application and/or subject property, either in isolation or cumulatively, that are distinct from those generalized concerns otherwise addressed in Appendix K of the Zoning Ordinance.

5. Explain whether the proposed site would encroach in a historically-significant area.
